ABOUT US

We are experts in the hand tool industry, offering a wide range of customized solutions for a wide variety of product types.

We strive to contribute to sustainability through our products and years of experience.

PROFESSIONAL HAND TOOLS

For any installer, builder, repairman or engineer, the basis for stable and efficient work is an arsenal of professional hand tools. A carefully selected and repeatedly tested set of convenient, familiar and reliable devices needed to perform installation work over many years of practice. Buying professional hand tools from HWH Machines GmbH is profitable!

This part of the catalog contains the entire range of professional hand tools used by high-class installers and repairmen. Here you can buy everything wholesale and retail: screwdrivers and wrenches to large sets, pocket tools and consumables.

All professional hand tools collected in these sections combine exceptional quality and durability, allowing them to work for many years, becoming a reliable and convenient assistant in the difficult work of an installer, builder, repairman or engineer. We guarantee high-quality and long service under the most intensive and prolonged use.

Even if you haven't found the tool you need in our catalog, we can still supply it wholesale or retail at the best price in the shortest possible time (sale on request). Send a request and we will prepare a commercial offer.

HOW TO ORDER A HAND TOOL

The moderate price of a hand tool and its quality are the main criteria for its selection. First of all, you need to consider the frequency of operation and further use. By making a list of products, you can select everything you need.

To get a consultation, fill out an online application or contact specialists using the feedback form via email. Experienced managers will provide all the necessary information on characteristics and cost. It's easy to order a hand tool if you have received answers to your questions and read the technical data. Call and choose equipment for work and private use at home.
